

Fact Families of Addition

A Fact Family is a group of 2 Addition and 2 Subtraction problems that use the same three numbers.

Remember:

The biggest of the three numbers always go last in the Addition Problems.

The biggest of the three numbers always go first in the Subtraction Problems.

Example:

Fact Family of 2, 7, and 9

$$2 + 7 = 9$$

$$7 + 2 = 9$$

$$9 - 2 = 7$$

$$9 - 7 = 2$$
